Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This office action is in response to the paper filed 4 March 2004.

All rejections are maintained as stated in the paper mailed 3 October 2003.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hayashi et al. (U.S. Patent 5,777,064), hereafter "Hayashi".

Response to Arguments

Applicant's arguments filed 4 March 2004 have been fully considered but they are not persuasive.

Applicant contends that Hayashi does not teach the instant invention because he does not teach a process whereby polymerized polycarbonate in its original molten state is direction introduced to an extruder to form a shaped article. This is not persuasive because Hayashi clearly states that his invention "includes a method of introducing the resin in a molten state immediately after the polymerization into the extruder for the treatment" (Column 6, lines 26-28). Although devolatilization also occurs in Hayashi's extruder, applicant's claims are written with open language which is not exclusive. By the process of passing Hayashi's melt through his extruder, a molded article of some sort will be produced. Furthermore, although Hayashi's

examples show a method wherein the polycarbonate is palletized prior to being extruded, Hayashi clearly discloses that his disclosure is not limited by the examples (Column 6, lines 35-37).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
